

Dry Beans and Peas

Lentils of the Southwest

SWEENEY ELEMENTARY SCHOOL

Santa Fe, New Mexico

Our Story

Sweeney Elementary is a large K through 5th grade elementary school on the south side of Santa Fe, New Mexico. The school celebrates the diversity of its students and emphasizes equality and access to programs for all students.

The recipe challenge team came together to create this delicious dish with the support of Cooking with Kids, a nonprofit organization in Santa Fe that provides hands-on nutrition education each year to elementary school students in public schools. The students helped pick recipe names, and the Cooking with Kids Super Chef engaged the students in conversation, critique, and feedback on the recipes. Over 30 students in 5th grade actively created and evaluated several trial recipes, which were sampled by more than 400 students. This led to the development of the final recipe, Lentils of the Southwest.

Lentils have so much potential for school food service menus. Packed with protein, vitamins, and fiber, they are easy to cook and have great versatility. Lentils of the Southwest can be served as a side dish to make the perfect New Mexican lunch. When accompanied by brown rice, this lentil recipe becomes a tasty and hearty main dish. The team is very happy that their recipe was chosen as a finalist to be represented in the cookbook.
