Institute of Child Nutrition
The University of Mississippi

The Institute of Child Nutrition was authorized by Congress in 1989 and established in 1990 at the University of Mississippi in Oxford and is operated in collaboration with The University of Southern Mississippi in Hattiesburg. The Institute operates under a grant agreement with the United States Department of Agriculture, Food and Nutrition Service.

PURPOSE
Improve the operation of child nutrition programs through research, education and training, and information dissemination.

VISION
Lead the nation in providing research, education, and resources to promote excellence in child nutrition programs.

MISSION
Provide relevant research-based information and services that advance the continuous improvement of child nutrition programs.

This project has been funded at least in part with Federal funds from the U.S. Department of Agriculture, Food and Nutrition Service through an agreement with the Institute of Child Nutrition at the University of Mississippi. The contents of this publication do not necessarily reflect the views or policies of the U.S. Department of Agriculture, nor does mention of trade names, commercial products, or organizations imply endorsement by the U.S. government.

The University of Mississippi is an EEO/AA/Title VI/Title IX/Section 504/ADA/ADEA Employer.

In accordance with Federal law and U.S. Department of Agriculture policy, this institution is prohibited from discriminating on the basis of race, color, national origin, sex, age, or disability.

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights; Room 326-W, Whitten Building, 1400 Independence Avenue, SW, Washington, DC 20250-9410 or call (202) 720-5964 (voice and TDD). USDA is an equal opportunity provider and employer.

Manager’s Corner: Meal Quality and Acceptability

Professional Standards

SERVING FOOD – 2200

Employee will be able to correctly and efficiently serve food portions to meet all USDA school meal patterns requirements and encourage healthy food selections including those for special diets.

2230 – Maintaining Food Quality and Appearance
Serve food to maintain quality and appearance standards.

Introduction

Manager’s Corner: Meal Quality and Acceptability is designed to empower managers to use in training their staff. Each lesson is roughly 15 minutes. This lesson plan contains:

- Learning objective
- Statement explaining the importance of the topic
- List of materials
- Instructions on how to present the information
- Questions to ask staff
- An activity to strengthen or refresh the knowledge of the staff
Objective: Identify the visual characteristics of quality foods and prepare foods that meet the program’s meal quality standards.

Background information: Providing a high-quality meal is an important job of child nutrition programs. Meal quality is one of the characteristics that affect how satisfied a customer is with a food item. As child nutrition professionals, it is necessary to judge the quality of each food item before it is placed on the serving line.

Some examples of factors related to meal quality include: variety, flavor, attractiveness of food on the serving line, choices that allow students to meet cultural and ethnic preferences, access to fresh foods, and etc.

Why it is important: The saying, “We eat with our eyes first” is true for all people but especially for children and teens. Making sure the food that is served looks pleasing can help increase the level of satisfaction from customers.

Questions for Staff

- How can we increase the quality of our meals?
  Possible answers:
  o Utilize batch-cooking to ensure freshness.
  o Hold foods at the correct temperature for service.
  o Hot foods hot and cold foods cold.
  o Follow recipes, including preparing foods to proper cooking temperatures and doneness.

- Broccoli on the serving line is bright green and tender. Would this be considered an acceptable quality item?
  Yes, bright green and tender broccoli looks beautiful on a serving line and is inviting.
How can meal quality and acceptability positively affect the school nutrition program?

Possible answers:
- Increase in participation
- Increase program integrity

Please note: The answers provided are only examples and are not an inclusive list of possible responses.

Activity: Meal Quality

Activity materials included in this document:
- Meal Quality
- Meal Quality Answer Key

Materials provided by the school nutrition operation:
- Copies of handouts
- Writing utensils

Activity Instructions:
- Print the handouts.
- Verbally deliver food quality characteristics included in this training to staff.
- Ask the staff to answer the questions included in this training.
- Facilitate the activity.
- Have staff discuss and reflect on ways they can improve meal quality as a team.
# Meal Quality

**Instructions:**
Look through the list of items in the food items box. Complete the activity by placing the food items in the appropriate column: Acceptable Quality or Unacceptable Quality. For each unacceptable quality item identified, write down a way to prevent that issue from happening again.

</table>

**How to Improve the Unacceptable Quality**
- Follow the recipe, ensure all ingredients are used and all steps are followed
- Check recipe for accuracy and adjust if needed (adjust with recipe writer)
- Use the correct serving utensil, so items are not crushed
- Maintain time-temperature controls of food (hot foods served hot, cold foods served cold)
- Set a timer for cooking times
- Check equipment for malfunctions (oven too hot/cold)
