Manager’s Corner

Legumes in School Meals

PROJECT COORDINATOR
Theresa Stretch, MS, RDN, CP-FS

EXECUTIVE DIRECTOR
Aleshia Hall-Campbell, PhD, MPH

Key Area: 1 Nutrition
Code: 1310 Dietary Guidelines
1320 General Nutrition
2019
The Institute of Child Nutrition was authorized by Congress in 1989 and established in 1990 at the University of Mississippi in Oxford and is operated in collaboration with The University of Southern Mississippi in Hattiesburg. The Institute operates under a grant agreement with the United States Department of Agriculture, Food and Nutrition Service.

**PURPOSE**

Improve the operation of child nutrition programs through research, education and training, and information dissemination.

**VISION**

Lead the nation in providing research, education, and resources to promote excellence in child nutrition programs.

**MISSION**

Provide relevant research-based information and services that advance the continuous improvement of child nutrition programs.

This project has been funded at least in part with Federal funds from the U.S. Department of Agriculture, Food and Nutrition Service through an agreement with the Institute of Child Nutrition at The University of Mississippi. The contents of this publication do not necessarily reflect the views or policies of the U.S. Department of Agriculture, nor does mention of trade names, commercial products, or organizations imply endorsement by the U.S. government.

The University of Mississippi is an EEO/AA/Title VI/Title IX/Section 504/ADA/ADEA Employer.

In accordance with Federal law and U.S. Department of Agriculture policy, this institution is prohibited from discriminating on the basis of race, color, national origin, sex, age, or disability.

To file a complaint of discrimination, write USDA, Director, Office of Civil Rights; Room 326-W, Whitten Building, 1400 Independence Avenue, SW, Washington, DC 20250-9410 or call (202) 720-5964 (voice and TDD). USDA is an equal opportunity provider and employer.

Manager’s Corner: Legumes in School Meals

Professional Standards

GENERAL NUTRITION – 1300

Employees will be able to understand the Dietary Guidelines for Americans, USDA’s food guidance system concepts, and general nutrition principles.

1310 – Dietary Guidelines for Americans, MyPlate, and School Nutrition relate the Dietary Guidelines and USDA’s food guidance system (such as MyPlate) concepts to the goals of school nutrition programs.

1320 – General Nutrition
Understand general nutrition concepts that relate to school meals, such as whole grains, sodium, etc.

Introduction

Manager’s Corner: Legumes in School Meals is designed to empower managers to use in training their staff. Each lesson is roughly 15 minutes. This lesson plan contains:

- Learning objective
- Statement explaining the importance of the topic
- List of materials
- Instructions on how to present the information
- Questions to ask staff
- An activity to strengthen or refresh the knowledge of the staff
Lesson Overview

Instructions for lesson:
- Review the lesson objective and background information.
- Review why it is important.
- Ask staff the questions.
- Facilitate the activity outlined.
- Provide time for staff to ask questions.

Objective: Identify food sources, nutrient considerations, health benefits, and menu suggestions for legumes.

Background information: For reimbursable school meals, legumes may be credited as a meat/meat alternate or as a vegetable component. However, one serving of the same type of bean or peas cannot count toward both food components in the same meal.

Why it is important: It is important to identify food sources, nutrient considerations, health benefits, and menu suggestions in order to understand the necessity of the legume subgroup. Beans and peas (legumes) are excellent sources of protein and provide a significant amount of fiber, iron, zinc, folate, and potassium.

Questions for Staff

- What food sources are considered to be legumes?
  Answer: Food sources for legumes include: kidney beans, pinto beans, black beans, lima beans, garbanzo beans (chickpeas), white beans (Great Northern beans), mung beans, navy beans, pink beans, red beans, soybeans, edamame (green soybeans), lentils, and split peas. For reimbursable school meals, legumes may be credited as a meat/meat alternate or as a vegetable component. However, one serving of the same type of bean or peas cannot count toward both food components in the same meal.

- What nutrients do legumes contain?
  Answer: Legumes are a great source of protein. Legumes provide a significant amount of fiber, iron, zinc, folate, and potassium.
Manager’s Corner: Legumes in School Meals

- **What are the health benefits for individuals consuming legumes?**
  
  **Answer:** Health benefits for legumes include:
  
  - Lower intake of calories due to a low-calorie food source
  - Reduced risk of heart disease which includes heart attack and stroke
  - Protection against certain cancers
  - Reduced risk of heart disease, obesity, and type 2 diabetes due to a high fiber diet
  - Lowered blood pressure, reduced risk of kidney stones, and decrease in bone loss due to rich potassium source

- **What are some menu suggestions for legumes?**
  
  **Answer:** Some menu suggestions for legumes include hummus, chili, black bean wrap, bean dip, baked beans, corn and black bean salad, refried beans, a variety of bean and pea soups, and cooked beans or peas as a side dish.

**Please note:** The answers provided are only examples and are not an inclusive list of possible responses.

---

**Activity: Legume Identification in School Meals**

Activity materials included in this document:

- Legume Identification in School Meals
- Legume Identification in School Meals Answer Key

Materials provided by the school nutrition operation:

- Copies of handouts
- Writing utensils
- ICN Meal Plan Mini Posters Legume (located at https://theicn.org/icn-resources/). Select Meal Pattern Mini-Posters and choose the mini-poster from the listing.

**Activity Instructions:**

- Print the handouts and worksheets.
- Post mini-poster.
- Distribute handouts and writing utensils.
- Ask staff to complete the Legume Identification in School Meals using the information from the ICN Meal Plan Mini Posters Legume mini-poster. At the conclusion of the activity, review the Legume Identification in School Meals Answer Key.
# Legume Identification in School Meals

**Instructions:** Review the list of beans and peas, and indicate if the items are legumes.
